FACADES

FACADES

Facade constructions completed by Gridinta teams utilize advanced machinery in combination with sustainable and innovate facade solutions. We focus on installation of ventilated, glass-aluminum, composite and other facade types.

Facade installations are implemented using scaffolding and rope access methods and are not affected by the time of year, precipitation, humidity or sub-zero temperature.

Services:

- Facade construction
 - Expansion
 - Renovation and transformation
 - Unique and unconventional facades
-

CERTIFICATES

Gridinta technicians hold all other necessary certifications to ensure efficient flow of procedures as well as the adherence to health and safety regulations at the work place.
